Nocera Umbra - Perugia, Umbria

This ancient monastery lies at the heart of the region Umbria, inside the beautiful Park of Mont Subasio (near Assisi). In the 14th century it was a vicarage whose splendour has been restored with an accurate work of restoration. At present it is a refined comfortable and welcoming residence. The estate lies at 700mt of altitude in the quiet landscape of Umbrian hills. From its privileged position (at the heart of a 45-acres park) Gubbio, Gualdo Tadino and the entire surrounding valley can be seen. Its strategic location is perfect to join various Umbrian cities.
