Piana Degli Albanesi - Palermo, Sicily

This farm lies at the heart of Sicily, at the foot of Rossella Mount and dates back to 1700. The structure is completely surrounded by a large 40 hectares private garden. The garden is made of olive groves, orchards and spicy herbs that are the pride of the local cuisine. The building has been carefully restored and has thus regained its ancient splendour. The farm boasts an excellent panoramic position overlooking Scanzano Valley, Ficuzza Wood and Rocca Busambra. The complex offers an elegant location where to hold ceremonies and weddings. We will be pleased to organize your wedding day in this splendid structure. Our staff will constantly follow the reception in all details and our chefs will take care of the menu. Each local dish will be served with excellent wines that will meet the taste of all guests.
